

Dulbecco's Phosphate Buffered Saline w/o Magnesium w/o Calcium

Product code :
LM - S2041

<u>Theoretical pH:</u>	7.5 ± 0.3
<u>Osmolality:</u>	290 mOsm/kg ± 10%
<u>Colour:</u>	colourless, clear solution
<u>Storage conditions:</u>	room temperature
<u>Shelf life:</u>	48 months
<u>Sterility tests:</u>	- Bacteria in aerobic and anaerobic conditions - Fungi and yeasts
<u>Endotoxin:</u>	< 1 EU/ml
<u>Composition:</u>	Available on request

Recommended use:

- Respect storage conditions of the product
- Do not use the product after its expiry date
- Store product in an area protected from light (not necessary for saline solutions).
- Manipulate the product in aseptic conditions (e.g.: under laminar air flow)
- Wear clothes adapted to the manipulation of the product to avoid contamination (e.g.: gloves, mask, hygiene cap, overall...)

The product is intended to be used in vitro for research or further manufacturing only and not for use as an Active Pharmaceutical Ingredient or food or animal feed.

Application:

Dulbecco's Phosphate Buffered Saline (DPBS) is intended for use in the maintenance of mammalian cells where a chemically defined, balanced salt solution provides an environment that will maintain the structural and physiological integrity of cells *in vitro*. DPBS is commonly used in cell enumeration as a diluent, for rinsing cells and as a buffer in many chromatographic procedures. DPBS is also used to wash and resuspend cells during the dissociation process. This product has neither calcium nor magnesium ions in its composition, so it doesn't inhibit the activity of the trypsin.

Uses:

Supplements, such as antibiotics, should be added as sterile supplements to the buffer solution. Storage conditions and shelf-life of the supplemented product will be affected by the nature of the supplements.

Signs of deterioration:

Buffer solution should be clear and free of particulate and flocculent material.
Do not use if buffer solution is cloudy or contains precipitate.
Other evidence of deterioration may include degradation of physical or performance characteristics.
